Summary

• 10 years of experience in all stages of the Web and software development lifecycle, from concept anddevelopment through quality assurance (QA) and tuning.
• Highly versed in Web 2.0, and Web 3.0 concepts with skills in creating websites with RSS, social networking, games, and video capabilities.
• In-depth understanding of security, SEO, and optimization to maximize site performance.
• Extensive knowledge and on-hands experience in information architecture, web design, project management, and testing.
• Proven background in large-scale enterprise application implementations.
• Superior communication, analytical, and interpersonal skills.

- HTML, CSS, SASS, JavaScript, TypeScript
- React, Redux, React Hooks, Material UI, Styled Components, Next
- Node.js, Express, Nest.js, PHP(Laravel), Web3.js, Ethers.js
- MongoDB, PostgreSQL, MySQL
- AWS, Microsoft Azure, GCP
- RestfulAPI, GraphQL, Microservice Achitecture

Experience

Full Stack Engineer
Freelance

Jun 2022 - Present (6 months +)
● Designed and developed SAAS Web/Mobile Platform UIs using React/Next/Typescript.
● Developed 100+ reusable React Components for CRM/ERP project.
● Experienced in Q/A, generating full production as a lead senior developer.
● Oversaw and developed third-party content integration and migration project involving architecture, design,implementation, and testing of integrated web applications on an aggressive timeline.

Frontend Engineer
Snowman Labs

Aug 2019 - May 2022 (2 years 10 months)
● Led a team of 8 members in the development, testing, debugging, and maintenance of dynamic and secure websites and web-based applications, including widgets, templates, and microsites.
● Used JavaScript, Web3.js, and React libraries for developing fintech project.
● Worked with technical, design, business, and editorial staff to create applications.

● Researched current industry trends, and assisted and took with the development and promotion of coding best practices within the team and industry.
● Built pixel-perfect UIs across mobile platforms using React Native.

- Mastered modern web frameworks such as React, and Next to develop 10+ user interfaces successfully.
- Developed and implemented solutions for scaling, performance improvement, monitoring, and systems configuration management.
- Created secure zones for organizations in the AWS public cloud using security groups, network ACLs, route tables, and internet gateways.
- Implemented TDD method to develop and build production.
- Worked with Agile software lifecycle methodologies.

Senior Frontend Developer
Kontra

Nov 2017 - Jul 2019 (1 year 9 months)
- Developed original eCommerce website and Web application, encompassing design, coding, testing, and maintenance for this 50-person company by using the MERN stack.
- Hired and trained staff of 3 designers and 4 developers to create online advertisements and widgets for partners and distributors.
- Full proficiency in HTML5, CSS3, and JavaScript ES2016/ES2017.
- Experienced with the development and deployment of dynamic and static Web sites.

- Named Employee of the Year in 2018.
- Designed and implemented highly scalable solutions by leveraging concurrency primitives such as Multi-threading, Mutex, Sempahore, etc.
- Participated in code reviews of other engineers' work and ensured that all code adheres to the company's coding standards & guidelines.
- Used tools such as Git, Jira, and Slack for version control, bug tracking, and communication respectively.

Full-stack Developer
Polarising

Apr 2015 - Sep 2017 (2 years 6 months)
- Responsible for the development of the new, highly-responsive user interface by using React.
- Created RESTful APIs and completed backend architecture using Node.js, Express.js, and MongoDB for many apps.
- Built cross-browser compatible and accessibility-compliant websites, resulting in 22% faster load time than the industry average.
- Produced multiple visual elements of web applications by translating UI/UX design wireframes into code, high-quality markup using HTML5 and CSS3.
- Developed and maintained Node.js microservices for a large-scale, high-throughput trading platform with10+ developers in the team.
- Implemented RESTful APIs to connect frontend applications with backend services using Express.
- Worked closely with an agile team of 10 members and provided end-to-end solutions for clients.
- Developed product tours with React for new features, improving customer adoption by 25% leading to increased revenue by $1M.
- Designed and developed web applications and user interfaces for various municipal departments.

- Mentored interns and managed schedules on a semester-by-semester basis.
- Assisted in software development and customization projects using open-source tools.
- Helped develop intranet with phone list, webmail, and calendar function.
- Co-developed a dynamic, secure Web site from scratch.
- Collaborated with senior developers to develop projects and maintained existing code and functionality.
- Gathered requirements and specifications for enhancements to websites.

Frontend Web Developer
Code Runners Ltd.

Nov 2013 - Mar 2015 (1 year 5 months)
- Built, tested, and implemented user interface applications.
- Assisted with product development projects.
- Integrated UI with large backend applications.
- Wrote and edited content for the company's website and e-newsletters.
- Aided in writing technical documents for website enhancements and updates.
- Helped develop and maintain plans and schedules for site redesign and relaunch.
- Took up the role of instructor and mentored upcoming developers about the basics of HTML5, CSS3, JavaScript, jQuery, PHP, CodeIgniter, and Laravel.
- Had good knowledge and skills in HTML, CSS(Sass), JavaScript, and PHP.
- Contributed to daily stand-up meetings, code maintenance, and problem-solving.
- Demonstrated expertise in creating the architecture of the website and detailed documentation.
- Designed and developed highly scalable and available systems.
- Worked with services like EC2, Lambda, SNS, VPC, and etc.

Education

University of National and World Economy
Bachelor's degree, Computer Engineering
Apr 2010 - Oct 2014
I had a precious reminder in my university

Licenses & Certifications

Certified Web Professional - Application Developer (CWP) - Triplebyte

Skills

JavaScript • TypeScript • React.js • Next.js • Node.js • Express.js • Nest.js • PHP • Laravel • MySQL • MongoDB
